

## **1. How do I get a copy of a Material Safety Data Sheet (MSDS) for a Rugby product?**

Most OTC products are exempt from the requirement for an MSDS because they are:

- pharmaceutical products in solid oral dosage forms (i.e., tablets and capsules).
- over-the-counter products packaged for direct consumer sale.
- dietary supplements.

The only required MSDS are those for specified products (liquids, creams, ointments) packaged in institutional sizes.
