Information contained in the above customer address column (marked as "Customer") and area marked "Reference" (when applicable) of this certification are for reference purposes only. Swagelok Company makes no stipulations, nor takes responsibility, for the accuracy or reliability of such information.

Swagelok products are manufactured under conditions which are free from mercury. No mercury bearing components have been used in the products of your order and no mercury bearing instruments or other equipment have been used in their manufacture, assembly, or testing in such a manner as might cause contamination.

Swagelok® Snoop is manufactured from material purchased in accordance with MIL PRF 25567, NFPA 52 section 6-12.2, and EPA Part 60 Appendix A, method 21, Section 4.3.3. Snoop products have a shelf life of 5 years.

No asbestos or asbestos-containing components are used in Swagelok brand products.

The Swagelok® products specified above are certified for use in commercial-grade (non-Nuclear Safety Related) applications and were manufactured in accordance with Swagelok Company's Quality Manual (SQS-F latest revision, revision K, dated December 18, 2012).

Swagelok Company's Quality System is approved to ISO 9001 (BSI Certificate # FM01729).
