---	------------------------------------	-----------------------	-----------------------

Extinguishing Media - Not usually necessary, as this product does not readily support combustion. Use an extinguishing agent applicable to the fire's fuel source (i.e. - carbon dioxide, dry chemical, foam, fog, and water spray).

Special Fire Fighting Procedures - Use water spray to keep containers cool and vapors down. Do not allow runoff to enter sewers or public watercourses. Wear self-contained breathing apparatus in chemical fires.

Unusual Fire and Explosion Hazards - Aerosol container (pressurized) may burst if heated over 120° F.

SECTION V - Reactivity Data

Signs and Symptoms of Exposure - Redness, tearing, burning in eyes. Redness, drying, cracking of skin. Dizziness, nausea, and loss of coordination possible if inadequate ventilation.

Medical Conditions Generally Aggravated by Exposure - Pre-existing skin and lung disorders may be aggravated by prolonged or repeated occupational overexposure.

Emergency and First Aid Procedures: Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. IF IN EYES Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF INHALED** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **IF SWALLOWED** Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

SECTION VII - Precautions for Safe Handling and Use

Steps to be Taken in Case Material is Released or Spilled - Caution, slip hazard. Pick up small spills with rag or towel. For large spills, isolate traffic and ventilate area. Waste Disposal Method - Pesticide wastes - Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Follow special instructions for HIV-1 disinfection procedures. Empty container - Replace cap and discard in trash. Do not puncture or incinerate. Consult federal, state or local disposal authorities for approved alternative procedures.

Precautions to be Taken in Handling and Storing - Avoid getting product in eyes. Avoid contact with skin and clothing. Direct spray away from face. Replace cap when not in use. Wash thoroughly after handling. Contents under pressure. Do not store near heat, sparks or flame or in direct sunlight. Exposure to temperatures above 120° F may cause bursting. Do not puncture or incinerate container.

Other Precautions - Follow label directions carefully. Keep out of reach of children. Do not deliberately concentrate and inhale vapors.
