SECTION 5	FIRE FIGHT	ING MEASURES
Flash Point:	N/A	
Flash Point M		
Burning Rate:		
-		Not Determined
LEL:	N/A	
UEL:	N/A	
-		4 Slight (LIMIS NEDA)
Flammability		
Extinguishing		Water spray, dry chemical, foam, carbon dioxide, or halon type extinguishers.
Unusual Fire	-	
Hazardous Co	Distion Pro	
		Under certain conditions some aliphatic aldehydes and carboxylic acids
		may form.
		Do not release runoff from fire controls methods to sewers or waterways.
Fire-Fighting		Because fire may produce toxic thermal decomposition products, wear a
		self-contained breathing apparatus (SCBA) with full facepiece operated
		in pressure-demand or positive-pressure mode.
		N/A
Spill / Leak Pr		
oman opins:		container for disposal, suction up remaining material with a high efficiency

Large Spins.	vacuum clear	
Containment:		ls, avoid suspending particles, collect for later disposal. Do not release
containment.	into sewers o	
Cleanup:	No special re	
Regulatory Re		
		AND STORAGE
Handling Pred		Keep containers closed at all times. Avoid creating dust. Keep away from ignition sources.
Storage Requ		Store in a cool, dry location.
Regulatory Re		N/A
SECTION 8	EXPOSURE	CONTROLS / PERSONAL PROTECTION
Engineering C		
Ventilation:	Provide gene	ral or local exhaust ventilation systems to maintain airborne concentrations
	below OSHA	PELs (sec.2). Local exhaust ventilation is preferred because it prevents contaminant
		o the work area by controlling it at its source.
Administrativ		
Respiratory P	rotection:	Seek professional advise prior to respirator selection and use.
-		Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear
		a MSHA/NIOSH-approved respirator. Select respirator based on its suitability
		to provide adequate worker protection for given working conditions, level of
		airborne contamination, and presence of sufficient oxygen. For emergency or
		nonroutine operation (cleaning spills, reactor vessels, or storage tanks), wear
		an SCBA. Warning! Air-purified respirators do not protect workers in oxygen-deficient
		atmospheres.
Protective Clo	othing/Equipm	nent: Wear chemically protective gloves, boots, aprons, and gauntlets to prevent
		prolonged or repeated skin contact. Wear protective eyeglasses or
		chemical safety goggles, per OSHA eye and face protection regulations
		(29CFR 1910.133). Contact lenses are not eye protective devices. Appropriate
		protection must be worn instead of, or in conjunction with contact lenses.
Safety Station	ns: Make	emergency eyewash stations and washing facilities available in work area.
Contaminated	Equipment:	Separate contaminated work clothing from street clothes. Launder before
		re-use. Remove this material from your shoes and clean personal protective
		equipment.
Comments:	Never eat, dri	ink, or smoke in works areas. Practice good personal hygiene after using this
	material, espe	ecially before eating, drinking, using the toilet, or applying cosmetics.

SECTION 9 PHYSICA	AL AND CHEMI			
Physical State:			Water Solubility:	Insoluble
Appearance and Odor:	Black free flo	wing powder, slight odor	•	N/A
