The product information contained in this brochure, including the product images and additional product materials, was collected from various supplier sources. All product claims and specifications are those of the product suppliers, not McKesson Medical-Surgical or its affiliates ("McKesson") and have not been independently verified by McKesson. McKesson is not responsible for errors or omissions in the product information.

The properties of a product may change or be inaccurate following the posting or printing of the product information in the flier, either in the print or online version. Caution should be exercised when using or purchasing any products from McKesson's online or print fliers by closely examining the product packaging and the labeling prior to use.

Due to product changes, information listed in this flier is subject to change without notice. This information is placed solely for your convenience in ordering and McKesson disclaims all responsibility for its completeness and accuracy, whether or not the inaccuracy or incompleteness is due to fault or error by McKesson.

# McKesson Perry® Performance Plus Surgical Gloves

McKesson Medical-Surgical strives to consistently deliver cutting-edge supply solutions to the fast-paced Ambulatory Surgery Center and Physician Office markets. To that end, Ansell and McKesson are pleased to offer you the McKesson Perry® Performance Plus line of surgical gloves. This line provides options that deliver superb tactile sensitivity, dexterity and protection. They are available in micro-thin powder-free latex, regular powder-free latex or powdered latex versions.

And now, McKesson Perry® has a polyisoprene glove that performs like a natural rubber latex glove without the risk of natural rubber latex sensitization.

## McKesson Perry Performance Plus

### MICRO-THIN POWDER-FREE STERILE LATEX SURGICAL GLOVES\*

- Textured finish for reliable grip
- Micro thickness allows for comfortable double gloving
- Brown color reduces glare from surgical lights and offers breach detection when used as an underglove
- Manufactured with patent-pending SureFit™ Technology, designed to adhere to the wearer's protective clothing in order to enhance roll down protection
- Continuous polymer coating for excellent dry- and damp-hand donnability
- Powder-free to help eliminate powder related post-operative complications and sensitivity
- PROTEIN CONTENT: This latex glove contains 50 micrograms or less of water-extractable protein per gram
- Single use only
- Sterile unless package is damaged or opened
