## PRODUCT SAFETY INFORMATION

All products manufactured and distributed by Applied Nutrition Corp. and its subsidiaries are "foods" regulated under the Federal Food, Drug and Cosmetic Act, 21 CFR §101.9. All Applied Nutrition products and the ingredients comprising these products are not derived from genetically modified materials. These products are also void of pesticides, antibiotics & hormone additives. All Applied Nutrition products are in compliance with the Federal Food, Drug and Cosmetic Act and applicable Food and Drug Administration regulations.

These products do not fall within the category of "hazardous chemicals" as that term is defined in the Occupation Safety and Health Administration Hazardous Communication Rule, 29 CFR §1910.1200©. Moreover, the special labeling and warning required under the OSHA Rule are not required for these products because "food", as that term is defined in the Federal Food, Drug and Cosmetic Act, is exempt from these special provisions of the OSHA Rule. Accordingly, neither "Material Safety Data Sheets" nor special labeling under the OSHA Rule are required for Applied Nutrition products.

The products produced by Applied Nutrition should be stored at controlled room temperature (68° - 77°F). Protect from heat, humidity and light. Additionally, your inventory of these products should be ordered, rotated and handled in accordance with good manufacturing practices so as to assure that the quality of these products are not diminished.

If you desire any additional information or suggestions regarding the proper handling and storage of Applied Nutrition products, please advise us. We will also be pleased to respond to any additional questions you may have concerning the use of our products.
