There are no significant hazards expected with intended use.

Potential Health Effects

Primary Entry Routes :

Inhalation ; No

ſ

Skin : No

Ingestion ; Yes

Environmental Effects :

There are no significant hazards expected with intended use.

Physical and Chemical Hazards :

There are no significant hazards expected with intended use.

#### Specific Hazards :

Dust explosion (like most finely grained organic powders)

Main Symptoms :

Acute Inhalation Toxicity

Exposure to excessive amount of dust may cause physical irritation to respiratory tract.

#### Acute Oral Toxicity

Low acute toxicity in animal experiment.

#### Acute Eye Irritation

May cause slight transient irritation.

### Acute Skin Irritation

May be non-irritant.

### Sensitization

From test no apparent significant hazards are expected . (Only few cases reported on incidental allergy-related conjunctivitis or dermatitis.)

#### Chronic Effect

Slight pulmonary fibrosis has been reported in rats upon chronic inhalation exposure to a toner at 4mg/m3 every day for 2 years. No pulmonary change was found at 1mg/m3. These findings show that exposure to excessive amounts of powder may cause damage to lungs. However, normal use and handling of this product as intended, does not result in inhalation of excessive amounts of powder.

### Carcinogenicity

This product does not contain the substances classified as carcinogenic by NTP, IARC or OSHA.

### Medical Conditions Aggravated by Exposure

Not applicable

Classification of the Chemical Product

This mixture is not classified as dangerous.

### Section4 : First Aid Measures

Inhalation :

Remove from exposure into fresh air and rinse mouth with water. Seek medical advice.

Skin Contact :

Wash thoroughly with soapy water.

Eye Contact :

Flush with a large amount of water until particles are removed. Seek medical advice. Ingestion :

Drink several glasses of water to dilute ingested toner. Seek medical advice.

Immediate Medical Attention :

Immediate medical attention is not required.

Specific Hazards : Can form explosive dust-air mixtures when finely dispersed in air. Fire-Fighting Instructions / Specific Method : No special fire protecting method is required. Sprinkling or fire extinguishers can be used. Protection of Firefighters : Wear gloves, glasses, a mask if necessary.

#### Section6 : Accidental Release Measures

Personal Precautions : Do not breathe in dust. **Environment Precautions :** Do not flush into sewers or watercourses. Methods for Cleaning Up : Confirm there is no source of fire and if there is a source, remove it. Sweep up spilled powder slowly and clean remainder with wet cloth. Section7 : Handling and Storage Handling : **Technical Measures/Precautions** Not applicable Safe Handling Advice Do not handle in areas where there is wind or draught, this may cause dust to get into eyes. Avoid breathing in dust. Storage : **Technical Measures** Not applicable Storage Conditions

Keep out of reach of children.

Store in dry, well-ventilated area, to maintain quality the temperature should not exceed 35degrees centigrade for a long time. Avoid direct sunlight.
