

Step 1: Remove your StarterHouse™ from the pack. The StarterHouse™ is spring-loaded.

Step 2: Allow your StarterHouse™ to spring open as in "B" above.

Step 3: Unfold your StarterHouse™ into 2 panels totaling 8 ft. long.

Step 4: Open the bottom of your StarterHouse™ so it stands on its own. As shown in "D & E"

Step 5: Secure your StarterHouse™ using the supplied stakes. Insert the stakes into the stake holes of the skirt at 45° angles as shown in "F".

Step 6: You must secure your StarterHouse™ using the high-wind tie-downs. Insert one end of the rope through the D-ring at the top peak, then through the anchor. Knot the rope around a stake and insert in the ground at a 45° angle. Keep as much tension on the rope as possible

Step 7: The vents of the StarterHouse™ can be secured open for ventilation. To secure vents, first unzip them. Roll them up and then use the straps to hold the vents in place as shown in "H".

Step 1: To take down your StarterHouse™, begin by removing all high-wind tie-downs and stakes. It may be easier for you to use the head of one stake to remove another.

Step 2: Fold your StarterHouse into 2 panels, then into one. See Photos "2 and 2a".

Step 3: Choose one of the top corners so the skirting does not get in the way. Fold your StarterHouse™ in half. Curl top lip under so it resembles a taco, then continue to curl top edge under and back toward your feet. You will feel the tension in the spring steel then feel it release..

Step 4: Move your left hand back to the corner where your StarterHouse™ is bent.

Step 5: Fold the top corner under, while you bring the left side up and over. While doing this, slide the entire StarterHouse™ toward you. Shown in Photo 5.

Step 6: Once the top corner is folded under, fold the left side down completely.

Take Down Instructions

Step 7: Fold the right side down over the left side. When you are finished, your StarterHouse™ will form 3 rings on top of each other.

Step 8: Place your StarterHouse™ between your knees to place it in the pack. It will prevent your StarterHouse™ from springing open while you are putting it away.

Step 9: After placing your StarterHouse™ in the Carry Pouch, store the stakes and high wind tie-downs in the pouches provided, and place in pouch.

Now you can take your StarterHouse™ anywhere!
