Why Foam Soap?

- Over **50 percent savings** over liquid and lotion soaps - foam generated is approximately 20 times¹ the actual volume of soap.
- The thick, pre-foamed lather allows more soap to stay on hands, **less is wasted** down the drain.
- Clean, easy-to-use design **keeps countertops clean** and free of messy soap residue.
- Foam soap is **more effective**, providing a **quick, thorough cleaning** of hard-to-reach places often missed by other soaps.
- Foam soap requires **25 percent less water** to lather than traditional liquid and lotion soaps.²
- Thick, rich lather **encourages proper hand washing** - it's easier and more pleasant to use.

- Refillable bottle, 9325B, is **recyclable and reusable**.
- Refillable reservoirs can be topped-off, **saving soap** that gets thrown away with cartridge/bag-in-box systems.
