management
products

dependable and ecologically friendly

Dependability is built into every underpad we make.

At Medline, we know that reusable underpads are an important part of your residents' daily living environment. That's why we engineer our pads to offer dependable comfort and performance. They also enhance dignity with their environment-complementing discreet appearance and stain-resistant construction.

Individuals have individual needs.

Medline strives to bring you innovative underpads tailored to specific needs. From an odor-controlling antimicrobial underpad to new underpads that offer excellent wicking and quick-drying fabrics, we have the ideal products to help you promote skin health.

Care for the environment while caring for your residents.

Medline is committed to providing the highest-quality patient-care products. At the same time, we also care about helping you reduce waste. Switching from disposable to reusable underpads involves little to no change in the quality of resident care, but it can greatly decrease the volume of waste produced by your facility and provide significant cost savings.

Medline can help you determine the best mix of reusable underpads for your specific resident population. A complete listing of Medline's reusable incontinence products can be found on the inside back cover (Page 7) of this brochure.

odor-controlling underpads

Odor Neutralizer

A breath of fresh air!

Underpads can be a source of persistent bacteria-caused odors. Medline's odor-control antimicrobial underpads are designed to target and tame these specific odors. The underpads are treated with a natural antimicrobial in the soaker layer. Odor-causing bacteria is killed when it comes into contact with the antimicrobial, which helps eliminate the source of the odor rather than just masking it. The result is a fresh room, which is a more pleasant place to visit. Best of all, the odor-control application does not wash out!

- 🐾 **Twill face fabric** is exceptionally strong and durable
- 🐾 **Treated polyester/rayon soaker** controls odors
- 🐾 **Vinyl knit barrier** is built to withstand the heavy demands of multiple washing and drying cycles while remaining soft and leakproof

energy-saving underpads

PerforMAX™

Swift-Dry technology means exceptionally fast drying times

Get energy savings and outstanding durability – all in one pad! The layers in the PerforMAX pad are bonded together to decrease the fluid pockets common with conventional underpads. The pad dries quickly, keeping your cost per use low. It also is a favorite with hard-to-please residents because it is thin, lays flat on the bed and doesn't roll or bunch.

- 🐾 **Deluxe brushed 100 percent polyester face** resists stains, doesn't pill and dries fast
- 🐾 **Our special lamination process** results in an underpad that lays flat with no bunching or rolling
- 🐾 **Vinyl knit barrier** is built to withstand the heavy demands of multiple washing and drying cycles while remaining soft and leakproof
- 🐾 **Polyester/rayon blended core** disperses moisture quickly and locks it in the core for maximum absorbency

protective underpads

AquaSorb

Keep fluid away from delicate skin

Incontinent individuals deserve outstanding comfort and protection. This is the first reusable underpad from Medline designed from top to bottom to maximize skin dryness, which helps maintain healthy skin.

- 👉 **Exclusive pearl-blue facing** alerts you when the pad is wet
- 👉 **Warp-knit polyester face fabric** is smooth and slides gently against the skin
- 👉 **Advanced quick-wicking top layer** channels moisture quickly into the soaker
- 👉 **Polyester/rayon blended core** disperses moisture quickly and locks it in
- 👉 **Vinyl knit barrier** is built to withstand the heavy demands of multiple washing and drying cycles while remaining soft and leakproof

Sahara®

Top choice for comfort and absorbency

Our super-absorbent Sahara underpad has a specially designed heavy-duty poly/rayon soaker that pulls wetness through the facing and into the body of the pad, helping to keep residents drier. Sahara underpads have a blue Vintex® barrier and a soft brushed polyester face fabric for comfort.

- 👉 **Deluxe brushed 100 percent polyester face** resists stains, doesn't pill and dries fast
- 👉 **Vinyl knit barrier** is built to withstand the heavy demands of multiple washing and drying cycles while remaining soft and leakproof
- 👉 **Polyester/rayon blended core** with 50 percent rayon disperses moisture quickly and locks it in the core for maximum absorbency

traditional underpads

Sofnit® 300

Medline's top-selling underpad!

- 👉 Tested to withstand 300 launderings
- 👉 Nine sizes to choose from
- 👉 Vinyl knit barrier is built to withstand the heavy demands of multiple washing and drying cycles while remaining soft and leakproof
- 👉 Twill face fabric is exceptionally strong and durable
- 👉 Polyester/rayon blended core disperses moisture quickly and locks it in the core for maximum absorbency

Sofnit® 300 Tartan

Also available with a printed tartan Ibex® face fabric!

- 👉 Printed plaid Ibex face fabric hides stains and gives the pad an at-home appearance

Sofnit® 200

Durability at a great price

- 👉 A lighter-weight soaker makes this underpad a more economical choice

Medline Select

Our lowest-cost-per-use underpad

- 👉 The same pad as the Sofnit 200, but with a lighter-weight tan barrier

Medline Select WAVE

Exceptional cost savings

- 👉 An even lower-cost option if barrier color is unimportant to you. We save in sorting, you save on the final price
- 👉 Colors vary from case to case

extra-absorbent underpads

Maxima®

Heavy pad with stain-resistant poly face

- 🐾 Heavyweight core for maximum absorbency
- 🐾 High rayon content in core increases holding capacity
- 🐾 Vinyl knit barrier is built to withstand the heavy demands of multiple washing and drying cycles while remaining soft and leakproof
- 🐾 Deluxe brushed 100 percent polyester face resists stains

Triumph®

Our most economical heavy pad

- 🐾 Heavyweight core for maximum absorbency
- 🐾 Vinyl knit barrier is built to withstand the heavy demands of multiple washing and drying cycles while remaining soft and leakproof
- 🐾 Twill face fabric is exceptionally strong and durable

reusable briefs

In addition to our market-leading reusable underpads, Medline also offers a full line of reusable briefs. The high-quality construction and performance features are the same as our underpads and include:

- 🐾 **Breathable, durable fabrics** that are comfortable against the skin
- 🐾 **Full and partial soakers** quilted in to provide adequate absorption for each resident's level of incontinence
- 🐾 **Elastic waist gathers** that conform to body contours, allowing comfortable movement
- 🐾 **Multiple snaps** at waist and legs for adjustable sizing and a secure fit
- 🐾 **Vinyl knit barrier** that is color-coded for easy size identification

Please contact your Medline sales representative for more information about our reusable briefs.
