

# ONIX PLUS READERS™

## THE PEAK OF SAFETY AND STYLE

Magnifying lens insert is strategically placed out of the user's direct line of vision.

Outer flip lens is available in 2 IR Filter lens options. Ideal for use around welding sites and in cutting and brazing applications.

Dual lens and frame with unique outer flip lens system provides users with multiple options. Flip the outer lens up for general applications. Flip the outer lens down for applications where tinted lenses are needed.

3-angle adjustable flip lens allows users to freely adapt to different working procedures.

Newly designed adjustable nosepiece provides 3 different angles, allowing the user to find the most comfortable fit.

Exceeds ANSI Z87.1-2003 High Impact Requirements  
Lenses provide 99% protection against harmful UV rays

### 5.0 IR FILTER FLIP LENS

Part #	Description
