

STOKO® **BlueForce™**

BlueForce™ is a 100% solvent-free, scrubber-free hand cleaner for medium to heavy-duty dirt and soils.

Description

BLUEFORCE™ is a completely solvent-free, industrial strength hand cleaner which contains no scrubbing particles. It has a very good skin compatibility and excellent cleaning power in cases of common industrial dirt (e.g. grease, oil, mineral oil, lubricating oil, graphite and metal dust). Laboratory testing proved BLUEFORCE to be significantly milder to the skin than competitive heavy-duty liquid cleansers.

BLUEFORCE cleans effectively without damaging the skin. Its very good skin compatibility is achieved by the use of skin compatible surfactants and innovative formulation technology.

BLUEFORCE is ideal for medium to heavy-duty cleansing applications. For extra heavy-duty needs, try KRESTO®, which is more concentrated, contains some solvent and uses natural walnut shell scrubbers.

Areas of Application

Ideal for workplace settings such as light to medium industrial, warehouse operations, machine shops, welding, metal working, etc.

Use

- Rub small amount of BLUEFORCE thoroughly onto dry hands.
- Add a little water and continue washing.
- Rinse with plenty of water and dry thoroughly.

Product Specifications

Blue liquid; density (at 68°F): approx. 1.02; pH-value: 6.5 - 7.5.

First Aid

If BLUEFORCE accidentally enters the eyes, flush thoroughly with lukewarm water. Contact a physician if burning sensation persists.

Ingredients

Water
Sodium Laureth Sulfate
PEG-8
Laureth-5
Sodium Chloride
Fragrance
Styrene/acrylic copolymers
2-Bromo-2-Nitropropane-1,3-Diol
Blue 1

PRODUCT-INFO

Features	Benefits
100% Solvent-free	Gentle to the skin, even with every day use. Exhibits very good skin compatibility.
Contains no scrubbing particles	Easier on the skin than products containing harsh plastic or pumice particles. Pleasing to users who prefer a liquid cleanser.
Unique, innovative formula	Out-performed leading competitive products in both cleaning effectiveness and skin compatibility.
Smooth liquid with neutral, fresh fragrance	Appeals to both male and female workers.

...keeping working skin healthy

STOKO®
SkinCare 

Skin Compatibility Tests

In a modified Duhring Chamber Test, BLUEFORCE™ demonstrated very good skin compatibility when compared with Sodium Lauryl Sulfate, a surfactant commonly found in commercial cleansers.

Sizes

2000 ml SoftBottle (for SVP or SVP Ultra Dispenser)
- 33540
4.0L Bottle (for 4.0L Dispenser) - 333541

Storage Information

BLUEFORCE™ can be stored in a closed container at room temperature for up to 30 months .

All STOKO® Skin Care products are tested for stability at temperatures between 23°F and 104°F. When tested at temperatures below 41°F and above 86°F, the products begin to fluctuate in viscosity. Hand cleaners may become cloudy or freeze partially at temperatures of 32°F or below, however, they are usable after thawing.

Additional Information

Frequent skin contact with hazardous substances requires the use of a high quality skin cleanser like BLUEFORCE and the use of Before Work and Conditioning products.

Occupational skin irritation, frequent washing and harsh climates can lead to dry, rough and chapped skin. To replace lost moisture and oils and help keep skin healthy, skin should also be regularly treated after work with an appropriate conditioning product, such as STOKOLAN®, STOKO® LOTION or STOKO® VITAN. People who already have extremely rough or very dry skin are advised to use a before work cream with a high oil content, such as STOKO DURAPRO®.

Contact STOKO® Skin Care or its appointed distributors for advice on selecting the appropriate products.
