# TENA<sup>®</sup> Underpads

## Specialty Underpads

### TENA<sup>®</sup> Air Flow Underpad

370\*

- specially designed for use on low air loss therapy beds to maximize air circulation
- breathable nonwoven backsheet allows air to circulate for healthier skin while protecting the mattress from excessive soilage
- nonwoven topsheet is gentle against the skin
- superabsorbent microbeads help to improve absorbency for greater security and skin dryness

### TENA<sup>®</sup> InstaDri Air<sup>™</sup> Underpad

359\*, 360\*

- suitable for all bed surfaces including pressure relief mattresses and overlays
- moisture lock controls odors and bacteria
- special breathable film allows moisture vapor and excess heat to escape, helping to prevent skin breakdown
- strong nonwoven backsheet resists bunching to promote comfort
- superabsorbent microbeads wick fluid away to help keep skin dry and comfortable
