

McKesson casting tapes provide your patients the mobility they need.

Help your patients return to their normal daily activities with McKesson Medi-Pak™ Performance casting tape. Our casting tape combines the benefits of fiberglass with the handling ease of plaster. High and early strength allows for weight bearing in 20 minutes and provides a durable cast with less chance of breakdown and the need for costly repairs or replacements.

Easy To Use

Our casting products have the same performance as national brands so you won't have to learn new application techniques. Water-activated resin lets you control working time according to application needs.

All You Need

McKesson offers a variety of colors to meet patient preferences and a comprehensive line of accessories to support your casting needs.

Casting Products

Medi-Pak™ Performance Non-Sterile Tubular Stockinettes

- Knitted from high-grade yarn and inspected to guarantee consistent knit construction, cleanliness, and proper roll dimensions
- Used under plaster casts for skin protection
- Provides pressure to hold dressing in place
- Use with orthopedic appliances
- Packaged in an easy-to-use dispenser box on a continuous roll, allowing user to determine length

Synthetic

Synthetic stockinettes (polyester) designed for use with synthetic casting systems because of wicking action and fast-drying features.
