| Version #  | 01   |                                |                   |
|  | 2. Hazards Identification  | on                             |                   |
| Emergency overview   | Flammable. Aerosol. CONTENTS UNDER PRESSURE.<br>Will be easily ignited by heat, spark or flames. Harmful in contact with eyes.                                     |                                |                   |
| Potential health effects                                   |  |                                |                   |
| Eyes   | Contact may irritate or burn eyes. Health injuries are not known or expected under<br>normal use.  |                                |                   |
| Skin   | Health injuries are not known or expected under normal use.  |                                |                   |
| Inhalation   | Intentional misuse by concentrating and inhaling the product can be harmful or fatal.  |                                |                   |
| Ingestion  | Exposure by ingestion of an aerosol is unlikely.   |                                |                   |
| larget organs  | Central nervous system.  |                                |                   |
| Chronic effects  | May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion and blurred vision) and/or damage. |                                |                   |
| Signs and symptoms   | Narcosis.  |                                |                   |
| 3  | . Composition / Information on   | Ingredients                    |                   |
| Components   |  | CAS #                          | Percent           |
| Acetone  |  | 67-64-1                        | 60 - 70           |
| Propane  |  | 74-98-6                        | 10 - 15           |
| n-Butane   |  | 106-97-8                       | 10 - 15           |
| Non-hazardous and other components below reportable levels |  | 2.5 - 10                       |                   |
|  | 4. First Aid Measures  | 5                              |                   |
| First aid procedures                                       |  |                                |                   |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.  |                                |                   |
| Skin contact   | Immediately take off all contaminated of medical attention if irritation develops of   |                                | and water. Get    |
| Inhalation   | If symptoms develop move victim to free  | esh air. Get medical attention | if symptoms persi |
| Ingestion  | In the unlikely event of swallowing contact a physician or poison control center.  |                                |                   |

Notes to physician

## 5. Fire Fighting Measures

Symptoms may be delayed.

| Flammable properties                                | Vapor or gas may spread to distant ignition sources and flash back. Runoff to sewer may cause fire or explosion hazard. |
|---|---|
| Extinguishing media<br>Suitable extinguishing media | Water fog. Foam. Alcohol foam. Dry chemical. Carbon dioxide (CO2).  |

**Protection of firefighters** 

Protective equipment and precautions for firefighters

In case of fire and/or explosion do not breathe fumes. Containers should be cooled with water to prevent vapor pressure build up.

| 6. Accidental Release Measures |  |  |  |
|--------------------------------|--|--|--|
| Methods for containment        | Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Stop the flow of material, if this is without risk.   |  |  |
| Methods for cleaning up        | Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.   |  |  |
|                                | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.   |  |  |
| 7. Handling and Storage        |  |  |  |
| Handling                       | Pressurized container: Do not pierce or burn, even after use. Do not smoke while using<br>or until sprayed surface is thoroughly dry. Use only in area provided with appropriate<br>exhaust ventilation. Do not use if spray button is missing or defective. Do not re-use<br>empty containers. Avoid prolonged exposure.  |  |  |
| Storage                        | Contents under pressure. Do not puncture, incinerate or crush. The pressure in sealed containers can increase under the influence of heat. Keep away from heat, sparks, and flame. Avoid exposure to long periods of sunlight. Store in cool place. Keep in an area equipped with sprinklers. Keep out of the reach of children. Keep away from food, drink and animal feedingstuffs. Level 3 Aerosol. |  |  |

### 8. Exposure Controls / Personal Protection

| osure limits<br>ACGIH |          |          |                 |                 |
|-----------------------|----------|----------|-----------------|-----------------|
| Components            | CAS #    | TWA      | STEL            | Ceiling         |
| Acetone               | 67-64-1  | 500 ppm  | 750 ppm         | Not established |
| Propane               | 74-98-6  | 1000 ppm | Not established | Not established |
| n-Butane              | 106-97-8 | 1000 ppm | Not established | Not established |
| OSHA                  |          |          |                 |                 |
| Components            | CAS #    | TWA      | STEL            | Ceiling         |
| Acetone               | 67-64-1  | 1000 ppm | Not established | Not established |
| Propane               | 74-98-6  | 1000 ppm | Not established | Not established |

#### Personal protective equipment

| Eye / face protection  | Do not get in eyes. Wear safety glasses with side shields (or goggles).  |
|------------------------|--|
| Skin protection        | Not normally needed.   |
| Respiratory protection | When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an air-supplied respirator. |

### 9. Physical & Chemical Properties

| Appearance         | Compressed liquefied gas.      |
|--------------------|--------------------------------|
| Boiling point      | 82.4 °F (27.8 °C) estimated    |
| Color              | Clear.                         |
| Density            | 0.7122 g/cm3 estimated         |
| Flammability (HOC) | 32.5503 kJ/g estimated         |
| Flash back         | No                             |
| Flash point        | -156 °F (-104.4 °C) Propellant |
| Form               | Aerosol.                       |
| Freezing point     | Not available                  |
| Odor               | Pleasant.                      |
| рН                 | Not applicable                 |

Product name: Warm Welcome Product #: 146 Warm Welcome

| Physical state   | Liquid.  |  |  |
|--|--|--|--|
| Pressure   | 45 - 65 psig @ 70F   |  |  |
| Solubility   | Partially  |  |  |
| Specific gravity   | 0.7123 estimated   |  |  |
|  | 10. Chemical Stability & Reactivity Information  |  |  |
| Chemical stability   | Stable at normal conditions. Risk of ignition.   |  |  |
| Conditions to avoid  | Heat, flames and sparks.   |  |  |
| Incompatible materials   | Strong oxidizing agents.   |  |  |
| Hazardous decomposition prod   |  |  |  |
|  | 11. Toxicological Information  |  |  |
