Section 4. First-Aid Measures

General Advice:	Take proper precautions to ensure your own health and safety before attempting rescue and providing first aid. Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.
Eye Contact	Avoid contact with eyes. If symptoms develop. Do not rub eyes. Immediately flush eyes with plenty of water for at least 15 min. Remove contact lenses, if present and easy to do so. Continue rinsing. Get medical attention if irritation develops and persists.
Skin Contact:	No effects anticipated. If symptoms develop. Remove contaminated clothing and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Inhalation:	No effects anticipated. If symptoms develop. Move to fresh air. If breathing is difficult, give oxygen. Call a physician if symptoms develop or persist.
Ingestion:	If swallowed, do not induce vomiting. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person.
Most important symptoms and effects, both acute and delayed:	May cause a mild skin/eye irritation. May cause an allergic skin reaction in sensitive individuals.
Indication of any immediate medical attention and special treatment needed:	None expected.

Section 5. Fire Fighting Measures

Suitable Extinguishing Media	In case of fire, use dry chemical Carbon Dioxide (CO ₂), alcohol-resistant foam or water spray(fog)
Unsuitable Extinguishing Media	N.A.
Protective Measures for Fire-Fighters:	Waterjets should not be used directly on igniting products because it may disperse the material and intensify the fire.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:	Keep unnecessary personnel away, Ventilate the area. Eliminate sources of heat and ignition. Do not touch or walk through spilled material. Stop flow of material, if this is without risk. Wear personal protection as described in Section 8 of this SDS.
--	---

Environmental precautions: Do not flush into surface water or sanitary sewer system. Should not be released into the environment.

Section 7. Handling and Storage

Handling Flammable: Use with adequate ventilation. Do not ingest. Avoid contact with eyes. Wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. If ingested, seek medical advice immediately and show the container or the label.

Storage Flammable: Store in a segregated and approved area. Keep container in a cool, well-ventilated area. Keep container tightly closed and sealed until ready for use.

Personal Protective Equipment N/A

Occupational Exposure: No special protective equipment required under normal conditions of use. Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Good general ventilation should be sufficient to control airborne levels. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.

Engineering Controls: Ventilation: General room ventilation sufficient to maintain exposure below excessive concentrations.

Respiratory Protection: None required under normal use conditions.

Skin Protection: None required under normal use conditions. Applicable for industrial settings only: Protective gloves recommended.

Eye Protection: None required under normal use conditions.
Applicable for industrial settings only: Chemical goggles recommended.

Other Protective Equipment: None required under normal use conditions.
Applicable for industrial settings only: Use personal protective equipment as required.

Work/hygienic practices: Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly with soap after handling and before eating, drinking, or using tobacco. Safety shower and eye wash should be available close to work areas.
