### Section 4. First-Aid Measures

**Eye Contact:** Immediately flood the eye with plenty of water for at least 15 minutes, holding the eye open. Obtain medical attention if soreness or redness persists.

**Skin Contact:** Immediately flood the skin with large quantities of water, preferably under a shower. Remove contaminated clothing and continue washing. Contaminated clothing should be washed or dry-cleaned before re-use. Obtain medical attention if blistering occurs or redness persists.

**Ingestion:** Have victim drink 1-3 glasses of water to dilute stomach contents; Induce vomiting.

**Inhalation:** Remove from exposure to fresh air. If there is difficulty in breathing, give oxygen. Obtain medical attention immediately.

### Section 5. Fire Fighting Measures

**Suitable Extinguishing Media** Use foam, dry chemical, sand or carbon dioxide. Keep containers and surroundings cool with water spray.

**Unsuitable Extinguishing Media** Do not use water jet directly.

**Unusual Fire and Explosion Hazards:** Cool endangered containers externally with water.

**Hazard from combustion products:** Nitrogen oxides, Carbon Monoxide, Carbon Dioxide, Soot Organic substances.

**Protective Equipment for Fire-Fighting:** Do not inhale combustion gases. Wear full protective clothing and self-contained breathing apparatus.

### Section 6. Accidental Release Measures

**Accidental Release Measures:** Clean area with (hot) water and detergent. Note that spillage will become slippery. Avoid contact with hot products Contain and absorb using earth, sand or other inert material. Transfer into suitable containers for recovery or disposal. Wear appropriate protective clothing.

**Environment Precaution:** Do not allow spilled product to enter drains, surface water or ground water. Do not allow product to enter soil/ subsurface. Large spillages must be notified to appropriate authority.

## Section 7. Handling and Storage

**Handling and Storage:** Special precautions are not necessary if use correctly. Keep in tinted close light protecting containers. Use in well ventilated area. Use local exhaust ventilation. Avoid inhaling vapor. Avoid contact with eyes and clothing. Store away from sources of heat or ignition. Storage area should be cool, dry, well ventilated, away from incompatible materials (strong oxidizing agents) and heat.
