

# Heel Incision Device

The McKesson Prevent<sup>®</sup> heel incision device is a gentle and safe blood sampling device for heel sticks in newborns. It is specifically engineered for newborns; the high-quality stainless steel blade makes small, precise incisions for reduced bruising. For optimal results, use the McKesson infant heel warmer (MFR#59-45HW) to help increase blood flow to the heel.

## FEATURES AND BENEFITS

- Integrated safety tab design
- Blade is fully shielded before and after use
- Specifically engineered for newborns, the high-quality stainless steel blade makes small, precise incisions for reduced bruising
- Permanently retractable blade minimizes possible injury or reuse
- Incision method performs a gentle sweeping arc instead of a puncture
- Precise incision for adequate blood sampling for less re-sticking
- Not made with natural rubber latex
