

Handheld Pulse Oximeter Sensors

McKesson Handheld Pulse Oximeter Sensors provide continuous monitoring of blood oxygen saturation and pulse rate. They offer continuous or spot check measurement that helps minimize patient discomfort. Their multi-angle display modes provide clear O2 and pulse rate readings. They also replay data in time to give medical staff a more accurate assessment. McKesson Handheld Pulse Oximeter Sensors are reusable and allow caregivers to monitor low perfusion.

Features and Benefits

- Noninvasive dual working modes to measure blood oxygen saturation and pulse rate
- Adjustable backlit brightness and large 2/8" thin-film transistor display screen for easy visibility
- Ergonomic shape and simple keypad for ease of use
- Ideal for pediatric to adult use
- Two-year warranty
- Not made with natural rubber latex
