

Silicone Adhesive Foam Dressings

Silicone Adhesive Foam Dressings: Highly conformable dressing for wounds with light to moderate exudate. Perforated, soft silicone gel adhesive provides gentle, but firm, adhesion and minimizes pain and trauma to the wound and skin upon removal. The dressing may be lifted and repositioned without losing its adherent properties. Breathable, yet moisture- and bacteria-resistant outer film layer seals the wound margins. The absorbent inner hydrocellular foam pad maintains a moist wound environment to help promote healing. McKesson silicone foam dressings are an excellent choice when fragile skin is a concern.

Indications: Wide range of acute and chronic wounds like venous leg ulcers, pressure ulcers, diabetic ulcers and traumatic wounds.

Contraindications: Patients with a known hypersensitivity to the product itself or its components.

Change Frequency: Change dressing as directed by a healthcare professional.

Satisfaction Guaranteed
 If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.

Never Compromise on CareSM

With McKesson Brands, you'll never have to compromise. We deliver quality products at competitive prices, backed by our 100% satisfaction guarantee. We have decades of experience in the market, and we offer you support and work to help ensure you have the products you need, when you need them – making it even easier for you to provide the best care for your patients.

The product information contained in this document, including the product images and additional product materials, was collected from various supplier sources.
