

Seat Cushions

The right support cushion can directly affect a user's health, comfort and well-being. According to RESNA, the Rehabilitation Engineering and Assistive Technology Society of North America, "cushions function to mediate seating pressures and provide postural stability." Choose McKesson cushions to add comfort, promote proper positioning and posture, increase stability, and redistribute pressure.

Features and Benefits

Molded Foam Lumbar Support Cushion

- Firm, molded high density polyurethane foam with side support wings contour to body shape promoting seated posture while providing added back support and comfort
- Orthopedic design helps keep spine in proper alignment
- Ideal for promoting seating posture while providing added back support and comfort
- Lumbar support helps ease lower back pain
- Sliding buckle straps adjust to better hold cushion in-place
- Removable nylon cover unzips for convenient machine wash
- Not made with natural rubber latex

Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.

Never Compromise on CareSM

With McKesson Brands, you'll never have to compromise. We deliver quality products at competitive prices, backed by our 100% satisfaction guarantee. We have decades of experience in the market, and we offer you support and work to help ensure you have the products you need, when you need them—making it even easier for you to provide the best care for your patients.

Seat Cushions

Features and Benefits

Molded Foam Donut Cushion

- Designed for excellent comfort and support while seated
- Ideal for relief of pressure associated with hemorrhoidal surgery
- Ergonomically-designed, the molded foam's open center and conforming characteristics minimize pressure-point discomfort
- Puncture-resistant foam and compact design is ideal for portable use
- Included navy cloth cover is removable for convenient machine-washing
- Not made with natural rubber latex

Foam Seat Cushion

- High density polyurethane foam to help in the prevention of pressure sores
- Highly resilient material designed to maximize shock absorbency and impact caused by various terrains
- Ultra-lightweight, 3-inch cushion, ideal for wheelchair use and convenient transport
- Adjustable safety straps to maintain appropriate position and add security
- Low-shear, stretch nylon cover is breathable and comfortable with a durable gray bottom for added skid resistance
- Low-maintenance cover accommodates risks of spill, perspiration and incontinence; unzips for convenient machine washing
- Not made with natural rubber latex

Seat Cushions

Features and Benefits

Foam Back Support Cushion

- Ergonomically-designed to help keep spine in proper alignment while providing added support and comfort
- Promotes improved posture for the head, neck, and lower back, lessening risks of discomfort, pain and injury common when sitting for extended periods of time
- High-density polyurethane foam conforms to provide support to lumbar region
- Stabilizing board insert prevents hammocking in sling-back wheelchair
- Not made with natural rubber latex

Premium Molded Foam Seat Cushion

- 3-inch design includes a pressure-sensitive, molded high density polyurethane foam topped with a gel-infused, visco/memory foam layer
- Low-shear stretch nylon cover allows air to pass, but resists fluids for lasting breathability, comfort and durability to withstand daily use and patient incontinence
- Specifically designed to optimize pressure relief by allowing user's pressure points to "immerse" into the gel-infused, visco-foam top layer
- Highly resilient material designed to maximize shock absorbency and provide pressure relief
- Adjustable safety straps buckle to maintain appropriate position and add security
- Not made with natural rubber latex

Seat Cushions

Features and Benefits

Seat Cushion with Molded Foam

- Helps in prevention and management of pressure sores
- Low-shear, stretch nylon cover is breathable comfortable with a durable gray bottom for added skid resistance
- Low-maintenance material accomodates risks of spill, perspiration and incontinence; unzips for convenient machine washing
- Includes molded, ultra-high density polyurethane foam encompassing a gel bladder for enhanced pressure distribution and shock absorbency ity
- Not made with natural rubber latex

Seat Cushion with Molded Foam

- Helps in prevention and management of pressure sores with enhanced pressure redistribution
- Premium 3-inch design includes a pressure-sensitive, molded high density polyurethane foam encompassing a gel bladder and topped with a gel-infused, visco memory foam layer
- Low-shear, stretch nylon cover allows air to pass, but resists fluids for lasting breathability, comfort and durability
- Low-maintenance material accomodates risks of spill, perspiration and incontinence; unzips for convenient machine washing
- Raised front ridge provides proper positioning and controls sliding
- Adjustable straps buckle to secure appropriate position and safety
- Not made with natural rubber latex

Seat Cushions

Compressed Coccyx Cushion

- Cut-out reduces pressure on spine and coccyx (tail bone) when seated
- Tilt design helps restore spine's natural "S" shape
- Great for home, office, and travel use
- Comfortable and durable foam construction
- Includes removable, machine-washable cover
- Individually packaged for retail use
- Not made with natural rubber latex

Inflatable Donut Cushion

- Helps provide both support and comfort when sitting for long periods
- Open-center design to provide maximum pressure relief
- Deflates for compact storage
- Great for home, office and travel use
- Easy to clean
- Individually packaged for retail use
- Not made with natural rubber latex
