

McKESSON

Syringe with Safety Needle

Prevent® SG syringe with safety needle is a single-use product offered in 1cc (1mL) and 3cc (3mL) volumes for administering various medications to patients. The safety hypodermic syringe with safety needles are designed with a safety mechanism that allows for a fast and smooth activation, helping to minimize needle exposure and allowing the end-user to keep their finger well behind the needle.

FEATURES AND BENEFITS

- May help to increase compliance with OSHA standards/requirements
- ISO-color coded packaging and needle hubs
- Fluid single-handed activation requiring minimal training and minimal change in clinician technique
- Bevel-up needle orientation to support recommended injection technique
- Shielding safety mechanism contains a stainless steel needle-tip cover
- Sterile
- Non-pyrogenic
- Regular wall
- Not made with natural rubber latex

Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.
