

## Nebulizer Kits

McKesson Nebulizer Kits are available in several configurations and with innovative features such as masks with flexible swivels and a bottom discharge on nebulizers. Flexible tubing provides an additional 60cc of aerosol to the patient. The Adult “Tee” Tube is universal and designed to prevent spilling. Our McKesson Nebulizer Kit with Infant Pacifier allows for the delivery of medication while reducing the apprehension experienced by children. Medication is inhaled through the nose, not through the mouth.

### Features and Benefits

- 2.7 $\mu$  nebulizer with a low dead volume (0.7 cc) delivers an optimal respirable mass of aerosol to the patient
- Leak-proof seal ensures efficient use of medication
- 10cc bowl with graduated volume markings provides high medication capacity
- 45-degree elbow allows nebulizing in upright or angle positions providing flexibility for caregivers and patients
- Pacifier helps to calm the infant during aerosol treatment
- Medication port directs medication to the nose and helps eliminate medication waste associated with “blow by” technique
- Not made with natural rubber latex

#### Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.

#### Never Compromise on Care<sup>SM</sup>

With McKesson Brands, you'll never have to compromise. We deliver quality products at competitive prices, backed by our 100% satisfaction guarantee.
