The above item is classified as an "article" under the OSHA Hazard Communication Standard and does not require a Material Safety Data Sheet.

The OSHA Hazard Communication Standard defines an article as a manufactured item:

- (i) Which is formed to a specific shape or design during manufacture;
- (ii) Which has end use function(s) dependent in whole or in part upon its shape or design during end use;
- (iii) Which does not release, or otherwise result in exposure to a hazardous chemical, under normal conditions of use.

To the best of our knowledge, the information contained herein is accurate. However, neither Becton, Dickinson and Company nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
