

Grab Bars and Bath Safety Rails

McKesson grab bars and safety rails are an essential bath safety solution for users of all ages. The Centers for Disease Control and Prevention strongly advises adding grab bars inside and outside showers and tubs and next to toilets—not only to help individuals with limited mobility and issues with balance or standing, but also as a proactive method of injury prevention. Choose McKesson's grab bars for a safer bathroom environment. Installing grab bars or safety rails is an affordable safety measure to help prevent accidents, provide support, improve stability and enhance a patient's independence and confidence.

Features and Benefits
