

Digital Blood Pressure Monitors

Product description

SELECT® Digital Blood Pressure Monitors provide easy, accurate blood pressure monitoring away from home. These portable monitors are designed to be slim and discrete for enhanced convenience. Their expanded memory storage allows patients to review the previous readings with a touch of a button. The digital readout includes systolic, diastolic, pulse rate, time of day and date. SELECT® Digital Blood Pressure Monitors come with four AAA batteries, carrying case, detailed directions and a warranty. Available with wrist or arm cuff.

Digital BP Monitor for the Wrist

- One-touch monitor is quick and easy to operate
- Lightweight wrist style is designed for convenient travel
- Automatically displays average of last three readings to easily track your pressure
- Offers 60-reading memory recall with date and time-stamp at the touch of a button
