PROFESSIONAL-GRADE HAND DUSTER

VISIBLY DENSE & ROBUST
MICROFIBER

ADVANTEX MICROFIBER HAND DUSTER

The professional-grade microfiber of our ADVANTEX Microfiber Hand Duster grabs hold of bacteria, pet dander, and dust. We don't just move dust around; we capture and remove it. The robust duster head is very dense but easily fits in small spaces, and the extendable handle helps reach higher areas.

FEATURES:

- Our professional-grade microfiber mop has industrial-strength stitching, allowing for heavy-use
- Compact, light-weight and ready for professional use
- Professional-grade microfiber grabs onto particles, improving EVS efficiency
- The full, dense microfiber mop head fits hard-to-access areas such as vents, electronic equipment, and lights
- Extra long handle extends up to 3 ft.
