

Can Liners

McKesson offers a wide selection of trash can liners that provide durable performance and resistance to leaks, tears, and punctures. McKesson liners, manufactured from high quality resins, are available in both linear low density (LLDPE) and high density polyethylene film (HDLP); choose the liner that is best for your application. See the next page for information on how to select the right can liners for your needs. McKesson liners can be used throughout any healthcare facility for refuse and garbage collection, containment and disposal. These liners are not intended for use with biohazardous waste.

Features and Benefits

- Manufactured from prime resins for superior quality
- Effortless bag dispensing from compact coreless interleaved rolls
- Source reducing product to promote environmental sensitivity
- Star Seal bottom allows even weight distribution and easy removal from receptacle

Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.

Never Compromise on CareSM

With McKesson Brands, you'll never have to compromise. We deliver quality products at competitive prices, backed by our 100% satisfaction guarantee. We have decades of experience in the market, and we offer you support and work to help ensure you have the products you need, when you need them—making it even easier for you to provide the best care for your patients.

The product information contained in this document, including the product images and additional product materials, was collected from various supplier sources. McKesson is not responsible for errors or omissions in the product information.

The properties of a product may change or be inaccurate following the posting or printing of the product information in the document, either in the print or online version. Caution should be exercised when using or purchasing any products from McKesson's online or print documents by closely examining the product packaging and the labeling prior to use.

Due to product changes, information listed in this document is subject to change without notice. This information is placed solely for your convenience in ordering and McKesson disclaims all responsibility for its completeness and accuracy, whether or not the inaccuracy or incompleteness is due to fault or error by McKesson.

Choose the Plastic Type

McKesson Brands offers both High Density Bags (HDPE) and Linear Low Density Bags (LLDPE) to meet a variety of transport conditions.

PLASTIC TYPES

PLASTIC TYPE	USES	MATERIAL SAVING	PUNCTURE RESISTANCE	TEAR RESISTANCE	LOAD CAPACITY
High Density Bag (HDPE)	Great for paper and non-sharp objects under moderate transportation conditions. High Density bags have excellent resistance to punctures and moderate resistance to tearing. Great for cost saving.	Excellent	Great	Good	Good
Low Linear Density Bag (LLDPE)	Recommended for sharper objects under rough transport conditions. Linear Low Density bags have excellent resistance to punctures and tearing.	Moderate	Good	Great	Good

Choose the Gauge

Film thickness is not necessarily the best way to judge bag strength. Advanced resin formulation allows manufactures to produce thinner, lighter trash can liners that are stronger than the traditional thicker liners, made from lower quality resins.

HIGH DENSITY (HDHP)

STRENGTH	THICKNESS
Light	6 ~ 9 mic
Medium	10 ~ 12 mic
Heavy	13 ~ 14 mic
Extra Heavy	15 ~ 17 mic
Extra Heavy Plus	18 ~ 24 mic

LINEAR LOW DENSITY (LLDPE)

STRENGTH	THICKNESS
Light	0.35 ~ 0.44 mil
Medium	0.45 ~ 0.57 mil
Heavy	0.58 ~ 0.69 mil
Extra Heavy	0.70 ~ 0.89 mil
Extra Heavy Plus	0.90 ~ 1.14 mil
Super Plus	1.15 ~ 1.39 mil
Super Heavy	1.4 mil & Up
