

Exam room wall signals

McKesson exam room wall signals use multi-colored indicator flags to show exam room status. They include all of the required hardware and they can be installed quickly. Constructed from high-quality, scratch-resistant plastic, McKesson exam room wall signals are durable and easy to sanitize. Use McKesson wall room signals in any setting to send non-verbal cues that instantly notify staff of the status of an exam, patient, physician, or room.

Features and benefits

- Easy mounting with two screws included in each package
- Each flag moves independently and stops in multiple positions
- Instantly recognizable colors that can be coded to your needs or current uses
- Packaged with six flags standard welded on single post (colors and arrangement as pictured)
- Available in two flag quantity options: four or six flags on a single post
- Phillips head screwdriver needed for installation
- 6-Flag colors: red, white, green, yellow, blue and black
- 4-Flag colors: red, green, yellow and blue
- Not made with natural latex
