

## Flushable<sup>†</sup> wipes

A flushable<sup>†</sup> wipe is intended for the use of cleaning the perineal area. The water and plant-based ingredients are designed to make the wipe safe for most septic systems and sewers, allowing users to flush<sup>†</sup> a single wipe for improved hygiene and convenience. The compact, soft pack design is ideal for a home bathroom or on-the-go and includes a snap-closure lid to retain moisture and freshness.

McKesson's flushable<sup>†</sup> wipes are available in two sizes, two pack quantities, and with or without fragrance to meet individual needs and preferences. McKesson's XL wipes, measuring 12.5 x 7.5 inches, provide ample material. The 7 x 6.9-inch wipes are sized to balance efficacy and portability.

## Features and benefits

- Flushable<sup>†</sup>, one wipe per flush<sup>†</sup>
- Meets INDA/EDANA Flushability Assessment (GD4)
- Gently cleans, fragrance free flushable<sup>†</sup> wipes are suitable for sensitive skin
- 99% Water and plant-based ingredients

### One wipe per flush<sup>†</sup>

<sup>†</sup>Independent lab testing shows these wipes meet INDA flushable product guidelines.

**Not all systems can accept flushable wipes.**

Ignoring disposal instructions may lead to clogs, property damage, or regulatory violations.

#### Do not flush if:

- Violates local rules
- Using RV, marine, or aviation system
- Using macerator toilet or household pump
- Fat or grease are put in any drain, or you are unsure of system capability

#### Flushing OK if:

- Permitted by local rules
- One wipe per flush
- No history of clogs or backups
- Septic follows EPA schedule for alternative systems (annual inspection & pumping)

**If a problem is noticed, dispose of in trash and stop flushing.**
