

The Monaghan Advantage

- ❖ Convenient, user-friendly device for reliable airway clearance
- ❖ Decreases cough frequency and breathlessness
- ❖ Increases exercise tolerance
- ❖ Designed to promote correct reassembly
- ❖ Easily transitions from hospital to compliant patient use at home
- ❖ Aligns with hospital cost reduction and COPD management programs
- ❖ Not made or manufactured with natural rubber latex, phthalates, lead or PVC
- ❖ Designed and manufactured in North America

AEROBIKA® (OPEP)

The AEROBIKA® Oscillating Positive Expiratory Pressure (OPEP) Therapy System is a convenient, user-friendly device that provides clinicians and their patients with a means for reliable, drug-free, natural airway clearance.

The AEROBIKA® OPEP system opens weak or collapsed airways by creating positive pressure and oscillations simultaneously, which helps move mucus to the upper airways where it can be coughed out. Clinical research has shown that use of the device improves the ability of a patient to bring up mucus, decreases cough frequency and breathlessness, and increases exercise tolerance, resulting in an enhanced quality of life.^{1,2}

THE FACTS

Proprietary pressure-oscillation dynamic delivers intermittent resistance and creates positive pressure and oscillations simultaneously. This opens weak or collapsed airways to mobilize and assist mucociliary clearance to the upper airways, where it can be coughed out.

Resistance is not position dependent, allowing the user to hold the device in the most natural position.

Five resistance settings allow the device to accommodate the lung capacity of most patients, resulting in the need to stock only one device.

RELIABLE,
DRUG-FREE,
NATURAL
AIRWAY
CLEARANCE

THE FACTS (continued)

Supports hospital COPD management protocols to avoid costly readmissions and increased length of stay from acute exacerbations of COPD.³

CLEANING IS EASY

- Designed for 6 months of use at home, clinic or hospital environment
- Dishwasher safe and designed to promote correct reassembly, the AEROBIKA® OPEP device easily transitions from hospital to compliant patient use at home.

ORDERING INFORMATION

PART #	NAME/DESCRIPTION	UNITS PER CASE
62510	AEROBIKA® Oscillating Positive Expiratory Pressure (OPEP) Therapy System	cs/10
62610	AEROBIKA® Oscillating Positive Expiratory Pressure (OPEP) Therapy System w/Manometer	cs/10
