

STOKO REFRESH® FOAM SOAP

Foam soap gives a rich and creamy lather, which provides a luxurious hand washing experience. Available in Anti-bacterial, Moisturizing, Hair & Body and Fragrance & Dye Free formulas.

Description

STOKO REFRESH® Foam Soap has great lather, a fresh fragrance and is gentle to the skin even with everyday use. A new foaming cap with every cartridge ensures full-bodied foam with every pump and no clogs.

Anti-bacterial formula with 0.5% Triclosan removes and kills common germs and bacteria. Hair and Body Foam is formulated for use in the shower and STOKO REFRESH® is also available in two formulas that contain no dye or fragrance.

The efficiency of the foaming pump helps to give a cost savings. Each activation of the pump releases .4ml of soap compared to 1-1.5ml in conventional systems. This reduction can amount to end-user savings of over 40%. Cost comparison documentation available upon request.

Use

- Pump foam in palm of hand, add a little water and wash thoroughly.
- Rinse thoroughly with potable water after washing.

Time Kill Results

STOKO REFRESH® Anti-bacterial Foam Soap
% Reduction after 30 seconds

Staphylococcus aureus	99.9%
Escherichia coli	99.9%
Pseudomonas aeruginosa	99.9%

Anionic%: 8.4-8.8%.

Skin Compatibility

Under conditions of a Human Patch Test, no evidence of primary irritation or allergic hypersensitivity was found. No negative reactions occurred after 24, 48 and 72 hours.

Size

800ml cartridge
(to be used with regular STOKO REFRESH® Foam Dispenser)
Moisturizing - #29932
Anti-bacterial - #32082
Dye and Fragrance Free - #32084
Hair and Body - #32085

1100ml bag
(to be used with STOKO REFRESH® Touch-Free Dispenser)
Moisturizing - #33200
Anti-bacterial - #33247

First Aid

For external use only. If STOKO REFRESH® accidentally enters the eyes, flush immediately with lukewarm water and contact a physician. Discontinue use if irritation or redness develops. If condition persists for more than 72 hours, consult a physician. Keep out of reach of children. If swallowed, call your physician.

Storage Information

STOKO REFRESH® can be stored in a closed container for at least 30 months at room temperature.

All STOKO® Skin Care products are tested for stability at temperatures between 23°F and 104°F. When tested at temperatures below 41°F and above 86°F, the products begin to fluctuate in viscosity. Hand cleaners may become cloudy or freeze partially at temperatures of 32°F or below, however, they are usable after thawing.

Additional Information

Occupational skin irritation, frequent washing or harsh climates can lead to dry, rough and chapped skin. This condition can result in irritation/rupture of the outer layer of the skin which impairs its natural protective function. To regenerate damaged tissue after work, the skin should be regularly treated with Stoko Lotion or Stokolan. In doing so, the skin is replenished with moisture, lipids and hydrophilic nutrients. People who already have extremely rough or very dry skin are advised to use a before-work cream with a high oil content. Contact STOKO Skin Care or its appointed distributors for advice on selecting the appropriate products.
