

TENA® Stretch Briefs Ultra & Super Absorbency

TENA® STRETCH BRIEFS
Choose if wearer prefers product style or:

- Moderate to heavy bladder & bowel incontinence
- Totally dependent or bed-bound
- Aggressive or behavioral issues
- Difficult to position or unable to turn
- Requires mechanical lift or 2 person assist

Select absorbency level based on individual's need

TENA® Stretch Ultra Absorbency Level

- Continuous heavier bladder leakage
- Heavy full bladder void
- Bowel incontinence
- Urge, overflow, functional, mixed incontinence

TENA® Stretch Super Absorbency Level

- Heavier level of incontinence, nighttime or extended wear
- Very heavy full voids
- Absence of chronic stools
- Residents on tube feeding, diuretics or an IV
- Urge, overflow, functional, mixed incontinence
