# Similac® Special Care® 20 With Iron

## Premature Infant Formula with Iron

- 1 A 20 Cal/fl oz iron-fortified feeding for growing, low-birth-weight infants and premature infants.
- 1 Use under medical supervision.
- 1 A nutrient profile identical to Similac Special Care 24 per 100 Cal.
- 1 Has a unique blend of nucleotides to help support the developing immune system.
- 1 DHA and ARA, nutrients naturally found in breastmilk that are important for brain and eye development.
- 1 Lutein and DHA to support the developing eyes and brain.
- 1 Calcium and phosphorus at concentrations - and ratio (1.8:1) - that supports intrauterine accretion rates.<sup>1</sup>
- 1 Approximately 2 mg iron/kg body weight per day, when fed at 120 Cal/kg body weight per day.
- 1 Mixes easily with other Similac® Special Care® formulas for a variety of high-caloric, nutrient-dense formulas—helps eliminate potential for mixing errors.
- 1 Kosher.
- 1 Halal.

### Safety Precautions

- 1 Not intended for feeding low-birth-weight infants after they reach a weight of 3600 g (approximately 8 lb) or as directed by a doctor.
- 1 If signs of intolerance develop, slow feeding or discontinue.
- 1 Never use a microwave oven to warm formula. Serious burns can result.

# Similac® Special Care® 20 With Iron

Premature Infant Formula with Iron

## Preparation

### Ready to Feed

The health of the infant depends on carefully following the directions for preparation and use. Proper hygiene, handling and storage are important when preparing infant formula.

- 1 Do not add water.
- 1 Shake very well.
- 1 **Do not use if breakaway ring is missing or broken.**
- 1 Twist off cap.
- 1 Twist on nipple and ring.
- 1 Pour desired amount into feeding container or attach nipple and ring (not included).
- 1 **Once oral feeding begins, use within one hour or discard.**
- 1 **If signs of intolerance develop, slow feeding or discontinue.**

Can be mixed to a variety of caloric densities using the **Similac® Special Care® LiquiMix® System**. Follow physician's instructions.

## Storage & Handling

### Ready to Feed

- 1 Avoid prolonged exposure of bottles to light.
- 1 Store unopened at room temperature; avoid extreme temperatures.
- 1 If original bottle was not used for feeding, recap immediately and store in refrigerator **for up to 24 hours**.
- 1 Do not reuse bottle.
